

CATTON, NEILL MEN COME TO FRONT IN AID OF CHILDREN

Sign Pledges To Support Seventy
Fatherless Little Ones
of France

IS BIGGEST BOOST YET FOR THE FUND

Eighty-five Per Cent of Employees
of the Firm Contributed
For Care of Youngsters

During the last two weeks a campaign has been set on foot at the works of Catton, Neill & Co., to give all the employees an opportunity to contribute to the French War Orphans' Relief Fund.

On September 8 the following notice was posted in English and Hawaiian at the works under a poster gotten out by the shop artist:

"What the war means to France and how we may help her children whose fathers have died for France and for us."

"The society which has undertaken the care of the orphans of France estimates that there are 150,000 fatherless children to be provided for. The women of France are as thrifty as the men are brave and on ten cents (10c) a French mother can keep her child for one day, on a 36c.50 she will keep her child for a year. We spend ten cents on a cigar, or a soda, daily and think little of it. Let us decide to give one day's smoke money each week and help in the noble work of caring for the French orphans. One week's money, ten cents, from each of Catton, Neill & Company's employees would take care of an orphan for six months. Twenty cents a week from each would keep a baby for a year."

"It would be fine if we could feel that we had provided for fifty French children for a year and we could do it if we would pledge ourselves to pay a small amount each week. Every man who cares to sign his name to the slip which will be distributed for ten cents twenty cents or twenty-five cents to be kept off his pay each week will know that his money is being put to a grand use, and Mrs. Hodgins, who is the local member of the society, will be told and will tell us the name of each child we are keeping, when she is advised of the arrival of the money at headquarters."

"Can we make this a go? It is up to each one of us in Catton, Neill & Company's employ to do his share but the management wants us to feel we are giving the money, it is not to be dragged out of our pockets."

Objects Fully Explicated

At noon on Tuesday, the eleventh Mrs. Hodgins, who is the local treasurer of the fund, accompanied by Miss von Holt, visited the works and addressed a full muster of the men. G. F. Campbell introduced the ladies Mrs. Hodgins spoke convincingly to the men for quarter of an hour, passing around pictures of children who are already being supported by the people of Honolulu.

During the afternoon cards were passed around, on which was typed:

To Treasurer, Catton, Neill & Co. Deduct _____ cents from my weekly pay commencing Friday, Sept. 14, until further notice, to be donated to the French War Orphans' Fund.

Quick Responses

The results were surprising. Of the shop's employees eighty-five per cent contributed. This means a weekly contribution of \$46.50. The contributions range from five cents to one dollar. The salaried employees are contributing \$250.50 monthly. Ten men are each contributing seventy cents or over weekly which means that each is going to support one child.

Two children—Odette Mony, four years old, and Angele Mony, ten years old, Jany LeComte, Selma et Oise, are already being taken care of by the men.

At the present rate, the employees of Catton, Neill & Company will provide for seventy children annually.

Those Who Contribute

The following is a list of the men who contributed so liberally to this fund:

From the shops: C. Dickson, J. Mc Guire, W. Cannon, T. Dunkin, C. Hogan, Wm. Beerman, J. Carmichael, B. Greenberg, H. Wodhouse, C. Rose, N. C. Ed. Boyd, M. Canha, A. Hoegh, J. Rodriguez, F. Walker, F. Roper, G. Small, Barney Joy, J. Wilkinson, Wm. Cummings, P. Pena, P. Varvaroff, R. H. Kani, H. Lopez, R. Williamson, A. F. Gueira, Wm. Brown, John Williams, Chas. Kanveloa, Wm. Oliveira, H. Peterson, Geo. Gray, P. Nelson, L. Gri Javal, David Ke, M. Rolinger, M. Penic, D. Farrell, T. Farrell, T. Mills, H. Bell, L. Nohola, P. Berner, J. Tappan, P. Gregory, Chas. Correia, E. Westhew, C. D. Upton, P. Ferira, Wm. Mett, J. J. Camara, H. Harris, Ed. Cannon, H. Mitchell, H. Mahi, W. Kellison, T. Padellaro, P. Maone, H. Wegerend, T. Kukui, A. B. Boyd, J. Abrey, A. Cannon, Jm Williams.

Teixeira, John Cannon, A. Silva No. 2, M. Silva, J. M. Siro, F. Gonzalez, Joe Paebeco, M.

JAPANESE PAPER OPPOSES REFORMS

Says Proposals of License Board
Are Likely To Cause Trouble
Among Laborers

The Hawaii Hoshi is of the opinion, and very decidedly so, that the proposal of the liquor license commissioners to limit the amount of sake that can be bought without requisition is iniquitous and likely to provoke labor difficulties. The Hoshi also favors longer selling hours for the wholesale liquor dealers and warns the community of what happened when Iwilei was "closed" as a sample of where "pipe dreams" of reform lead to.

"There will be a public meeting tomorrow afternoon about the new regulations concerning the sale of liquor proposed by the Liquor License Commission."

Labor's Friend

"The Hawaii Hoshi, having the interests of the Japanese workmen in view, takes advantage of this opportunity to present their attitude on the matter to the general public."

"The Japanese constitute the larger proportion of the total workmen in the district; and as the major part of them must make up with their evening meals, sake being considered by them in the light of a soothing tonic. The bringing into being of any such regulation as is proposed would mean the placing of stumbling blocks in the way to one of the great factors in the economic upkeep of the city and its vicinity. This is because, as the allowance of but one quart of sake at a time (and this, after making written application for it, and going through the usual red-tape accompanying it) it would mean that it would have to be procured from the dealers every day, which would be impossible, considering the fact that the workmen's hours on duty are from seven to five o'clock, the same as those of the liquor dealers may keep their stores open an hour or so longer in order to accommodate the workmen. The hours of the license inspectors would also have to be readjusted."

"If the regulations must be enforced the Hawaii Hoshi suggests that certain modifications be made in the regulations now in force, so that the liquor dealers may keep their stores open an hour or so longer in order to accommodate the workmen. The hours of the license inspectors would also have to be readjusted."

"And, as it is customary for Japanese workmen to buy a demi-john full at a time, it would be highly appreciated if the regulated allowance is increased to one gallon, or if bought in bottles, the limit be placed at six bottles. This would be convenient for them, and well within the scope of propriety, as the one purchase would generally last them for a week or more. This would do away with the tendency to drop work for a part of the day to procure their sake for the evening—a tendency which will surely make its appearance if one or all of these modifications are not made for their benefit. Habitual drinkers have done worse than quit work in order to satisfy their craving."

"It is not the liquor itself that is harmful, but the abuse of it. And abuse of it can be stopped as readily as the abuse of any other privilege could be stopped if the officers of the law would only take the initiative and not wait until the warrants have been served to make the arrests."

Congratulations Army

"The Hoshi congratulates the Army officials upon the active manner in which they are handling the tabu on liquor among the soldiers. But in spite of it all they have not altogether stopped the drinking of intoxicants among the men who come under their jurisdiction."

"When our would-be moralists seed in closing Iwilei they did not take into account the fragile nature of all air-castles. Where once it was a segregated district it is now a 'moving Iwilei' carrying, as it has been long in the last few months, stench and disease in its wake, and polluting the hearts of girls who would other wise have never known what prostitution meant."

"Time and again experience has taught us to leave well enough alone. The Hoshi hopes that our leading citizens will come down a little closer towards solid ground at tomorrow's meeting. Pipe dreams are too elusive to trust."

PLUNGES IN POOL AND RESCUES DROWNING LAD

Awana K. Yuen performed a deed of heroism, last Sunday, when he rescued another youth, Kuo Yuen, from drowning in a pond in Maunaloa Valley.

Kuo Yuen is a good swimmer, but was attacked by cramps and became helpless. Awana Yuen, noticing his condition, plunged into the pond and succeeded in bringing the drowning lad to shore, where, after a time, he regained consciousness. The Yuens are unrelated.

From the town office: Miss L. Jamieson, W. A. Ramsay, J. C. McGill, B. Shields, W. K. Shin and H. Yakata.

WILL INVESTIGATE PUBLICITY VALUES

Claims of Those Asking Assistance To Be Sifted By Committee Before Approving

All future applicants for assistance in return for publicity work for the Islands will have to be passed on and approved by the promotion committee before they will be helped on their way. It was decided to put this regulation in force, at the rally meeting of members from all islands held during the convention.

The number of applications for assistance, which usually means free transportation and hotel board, has increased by leaps and bounds within the past year. Those who ask these favors have always promised of wide publicity to offer.

In some cases the publicity which they are able to give the Territory is of genuine value, but when they are coming as thick and fast as they have during the last year, there are many which are of doubtful efficiency as tourist-getters. It is the aim of the committee to weed out those of little use, without refusing any reasonable courtesy to those which are worth while from a publicity standpoint.

All possible tact will be used in making inquiries in order not to offend any of the various applicants, but the committee will endeavor to sift each man's claims to the bottom before giving approval, in the same manner as the chamber of commerce investigates all advertising propositions before recommending them to its members.

Most of those who wish the aid of the committee are writers, lecturers, or motion picture operators. Some mainland hotel agents have been among the number.

G. C. Scott of the Inter-Island steamship company stated yesterday at the meeting that the requests for free transportation were becoming a nuisance, and that if they were not lessened in some way the company would be compelled to refuse evermore.

G. H. Vicars, representing the Hilo Board of Trade, L. W. de Vis Norton, D. H. Case of Maui and Demosthenes Lycurgus of the Volcano House were also among the speakers at the meeting. All of them were in favor of regulating the demands of the publicity workers.

PART OF BOY'S FOOT CUT OFF BY WHEEL

While jumping a freight train at Kalihi, last night, W. Wedemeyer, Jr., a fourteen-year-old boy, fell and a wheel passed over his left foot, cutting off a third of that member.

The lad was taken to the Emergency Hospital and held there until the arrival of Dr. R. G. Ayer, who turned him over to Dr. W. W. Benz, physician of the Oahu Railway & Land Co. He is a son of W. Wedemeyer, engineer for the Hawaiian Dredging Company, who resides at Kalihi.

G. W. Gantz, a member of the Sixth Aero Squadron, Fort Kamehameha, was picked up at the corner of Hotel and Union Streets last night and taken to the Emergency Hospital, where he was found to be suffering from an attack of hysteria.

Hayward Puch, Company D, 25th Infantry, was treated at the Emergency Hospital for a cut ear. He said he had slipped on the sidewalk.

FEW SHIPS CLEAR

But thirteen vessels cleared from Gray's Harbor in August, and cargo shipments of that month were the lightest of any month in ten years. The closing of most of the harbor mills, due to the strike, was the cause.

Saves Eggs

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, corn bread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced one half or more, and often left out altogether with excellent results, by using an additional quantity of Royal Baking Powder, about a teaspoon, in place of each egg omitted. Try the following recipe which is a practical illustration:

EGGLESS MUFFINS

2 cups flour
4 teaspoons Royal Baking Powder
2 tablespoons sugar
1 teaspoon salt
1 cup milk
2 tablespoons shortening

DIRECTIONS—Mix and stir dry ingredients, add milk and mixed shortening and beat until smooth. Bake in greased muffin tins in hot oven 20 to 25 minutes.

The old method called for 2 eggs

You must use Royal Baking Powder to obtain the best results.

New book of recipes which economize in eggs and other expensive ingredients mailed free. Address Royal Baking Powder Co., 135 William St., New York, U. S. A.

ROYAL BAKING POWDER

Made from Cream of Tartar, derived from grapes, and adds none but healthful qualities to the food.

No Alum No Phosphate

FORT RUGER IS TO SEE MUCH BUILDING WORK STARTED SOON

Barracks, Officers' Quarters, Administration Building and Other Structures

OTHER IMPROVEMENTS TO BE MADE AT SAME TIME

Army Work Goes On Steadily
Though New Hospital Is Delayed For Short Time

Important building operations and other improvements at Fort Ruger are soon to be started, it was learned yesterday at the office of the contracting quartermaster. Plans and specifications have been prepared, it is understood, and bids are soon to be asked. When completed the accommodations at the fort will have been materially increased.

Construction work that is soon to start at Fort Ruger will include the building of five sets of barracks, officers' quarters, an administration building, guard house, stables and wagon sheds.

Building operations of a scale such as are to be undertaken and the consequent increase of accommodation, necessitate other improvements and other work as well. Sewer and water mains must be laid and there are to be new systems of roads and paths laid out and put in. It is in line with similar work that has been done or is being done at the other posts of the island.

Further building is planned for Fort Shafter and is soon to be commenced. These include new stables and accommodations for supplies.

Still other work is planned but will not be announced until after reports have been received from Washington to cables that have been sent from here.

Work has not yet been started on the new hospital building that is to cost a million dollars when completed. While it was understood that there was \$200,000 available it was learned from Washington recently, after the plans and specifications and drawings had been sent there for approval that the fund from which the money is to be obtainable had not yet been divided.

Awaiting orders from Washington this matter has been halted but it is expected that this will be a matter of only a short time, perhaps only a few days.

Over on the waterfront work is progressing well on the new quartermaster store houses. Concrete work on foundations and floors is about all completed, and on the Waikiki end of the premises the frame is about up for the first of the great structures.

Some idea of the amount of building that goes quietly along for the army here can be formed from the statement that there are now being built eighty-eight houses of the same general type.

FIRST ALASKA PACKER MAKES SAN FRANCISCO

SAN FRANCISCO, September 4.—The first of the fleet of sailing vessels engaged in the Alaska salmon packing industry made port on Sunday—the ship Indiana, one of the Alaska Packers' Association fleet, and she came down from Nushagak in the remarkably fast time of seventeen days.

Captain Thomsen, as usual, in his skipper and she brought 41,946 cases.

Last year the first vessel to reach here was the schooner C. A. Thayer which arrived on August 26th with 210t barrels of salmon for Peter M. Nelson.

SPORTS GIANTS AND WHITE SOX MEET DEFEAT

Leaders of Both Major Leagues
Taken Down From Their
High Horses

NATIONAL LEAGUE

Team	Won	Lost	Pct.
New York	90	50	.943
Philadelphia	77	60	.922
St. Louis	69	62	.900
Cincinnati	73	71	.905
Chicago	72	72	.900
Brooklyn	68	72	.889
Boston	67	74	.897
Pittsburgh	47	96	.329

AMERICAN LEAGUE

Team	Won	Lost	Pct.
Chicago	85	50	.956
Cleveland	82	55	.900
Detroit	72	71	.905
Washington	69	72	.478
New York	68	73	.485
Philadelphia	51	87	.370
St. Louis	55	92	.381

Both major league leaders were whipped yesterday, the Cubs doing it to the Giants and the Athletics putting the same trick over on the White Sox. However, the Phillies did not play and made no advance on the Giants. On the other hand the Red Sox dropped two games to the Tigers and got away further than ever before from the American leaders.

There was a double-header and a single staged in the National League yesterday, the Brooklyn-St. Louis game scheduled for the latter city being called on account of rain. No other game was played.

The Pirates and Braves engaged in a dual contest at Pittsburgh and broke even for the day, the Pirates taking the first, which was a very close game, and the Braves getting away with the second by a margin of two runs. The surprise of the day for the Nationals came when, playing at Chicago, the Cubs defeated John McGraw's Giants by the score of 4 to 3.

There were no changes in the order of the National League teams as they stand in the percentage list.

Four fights were staged in the American League during the day, two of them being shut out. In this league, also, the surprise of the day was the defeat of the White Sox, leaders, by the Athletics, who only got out of the cellar the day before. In the American so changes came as a result of the day's games and the teams remain in their former places in the percentage list.

In two good, close games the Tigers won from the Red Sox, shutting the latter out from the score board in the second contest. This double defeat placed the Boston American without the pale of possibility to overtake the White Sox, it is believed.

In a close game the Naps whitewashed the Yankees. The Senators had things going their way in the game with the Browns and won out 6 to 4. The Athletics took the White Sox into camp by the close score of 2 to 1.

NATIONAL LEAGUE

At Pittsburgh—Pittsburgh 6, Boston 3; Boston 6, Pittsburgh 4.

At Chicago—Chicago 4, New York 3. At St. Louis—Game between Brooklyn and St. Louis called on account of rain.

AMERICAN LEAGUE

At Boston—Detroit 5, Boston 2; Detroit 1, Boston 0.

New York—Cleveland 2, New York 0.

At Washington—Washington 6, St. Louis 4.

At Philadelphia—Philadelphia 3, Chicago 1.

ANGELS CROWDING BEES QUITE HARD

San Francisco Increases Its
Lead in Pacific Coast
League Standing

Team	Won	Lost	Pct.
San Francisco	95	57	.950
Salt Lake	87	74	.930
Los Angeles	90	79	.933
Oakland	79	80	.937
Portland	71	90	.444
Yakima	70	101	.409

At the rate the Seals are gaining in their Pacific Coast League standing, the Bees are slipping back. Salt Lake now as much as .012 from first place, when on Sunday the Bees were in a tie with San Francisco. The Angels won yesterday and have gone up a few decimals, being now only .007 from Salt Lake. The Los Angeles team is certainly threatening the Bees. A win by the Naps today and a loss by the Saints will place Los Angeles second.

The Seals defeated the Bees again yesterday, as they did the day before. This makes two wins for San Francisco from Salt Lake this week. Yesterday's game was a close one, however, the Seals just managing to nose out the winning run after a tie score.

The Seals took a good game from the Tigers right on the Los Angeles grounds. This was the first game between the two since this week.

Up in the Rose City, where the rain seemed to have let up, the Beavers took an easy game yesterday from the Oaks, their second this week. All the home teams won yesterday.

Yesterday's Scores

At Portland—Portland 6, Oakland 1.

At Los Angeles—Los Angeles 3, Vernon 3.

At San Francisco—San Francisco 2, Salt Lake 2.

PARIS, September 7.—Georges Carpentier, the French pugilist and at present an aviator in the French army, according to the Herald, is going to the United States as an aviation instructor and will be stationed at Dayton, Ohio.

ANOTHER SHIPYARD FOR SAN FRANCISCO

Company Headed By R. N. Burgess Secures 2700 Acres For Site

SAN FRANCISCO, September 8.—Another huge shipbuilding plant is to be erected on the shore of San Francisco Bay. The plant will rival in size that at Newport News, a site covering 2,700 acres of land already having been selected at Bay Point, on Suisun Bay, in Contra Costa county.

A large part of the land has been secured from the Crocker estate, and a bond issue of \$3,000,000 has been approved by Commissioner of Corporations Carnahan. One million five hundred thousand dollars of this amount will be devoted to payment for the land, and the balance to the creation of the plant, which is to be devoted to the construction of steel ships.

The company is headed by R. N. Burgess, and a number of prominent local capitalists are interested in the venture. According to present arrangements, the management of the new plant will be in the hands of Henry T. Scott, formerly of the Union Iron Works, and his associates.

For the seventh successive annual term, William T. Rawlins, the father of the Honolulu swimming game, was elected yesterday president of the Hawaiian Association of the American Amateur Athletic Union.

With Rawlins were elected the other officers who have served previously, with the exception of Lorrin Andrews, secretary-treasurer, who declined to hold office any longer, owing to his professional duties demanding his retirement. In Mr. Andrews' place Joseph Stickney being elected.

The war clouds which had been hovering over the heads of the old officers were dispelled yesterday after a conference held by the factions and the dove of peace fluttered triumphantly in the realms of the local A. A. U. organization. It was just as well that this was so, for the rumors that had been sedulously nurtured the past few weeks proved unfounded when looked into by those who made it their business to run them down.

Triple Meetings

There were three meetings held yesterday, one after the other, and all the business on hand was transacted without hitch or fuss. First, the old officers met with the old board of governors and presented the accounts and reports of their stewardship for the past year. Next, the association membership met and more accounts and reports were presented, followed by the election of the members of the board of governors. Lastly, the board of governors met and elected the officers of the Hawaiian Association for the coming year.

William T. Rawlins presided at all the meetings. At the meeting of the association the following representatives, the name of the organization represented following, were present:

Representatives Present

Harold Castle, Hui Nalu; John F. Soper, Myrtle; Lawrence Cunha, Hea-lasi; Earle G. Bartlett, Kamehameha; Ben Clark and A. L. Castle, Palama; Frank E. Midkiff and J. M. Watt, Outrigger; Mrs. Foulard Lee, Mrs. W. H. Hoogs Jr. and Miss Frances Lawrence, Woman's Auxiliary; Joseph Stickney and Lorrin Andrews, Trail and Mountain Club; Glen E. Jackson, Y. M. C. A.; Joseph Stickney, McKinley High; Wm. T. Rawlins, Oliver P. Soares and Harold Godfrey, Honolulu Amateur Athletic Club. In addition to these there were several others present, men who are generally interested in athletics.

President Rawlins stated the purpose of the meeting and ordered roll-call, reading of the minutes of the previous meeting, the annual report of the secretary-treasurer, offered by Lorrin Andrews, which was accepted and placed on file, and the report of the games committee, which was read. As this was only a partial report, owing to several details of the trip of the mainland swimmers here for the most being incomplete until their departure in the Matsunos, the report, presented by John F. Soper was accepted, the final report to be presented at the next meeting, which will be held on September 28, at four o'clock in the afternoon.

The selection of the membership of the board of governors followed, each unit of the association naming its representative on the board.

Al Castle Makes Suggestion

Senator Castle suggested that the chairman of the registration committee do more to assist the men holding a registration card than had been done heretofore. He thought it would be well before any meet came on to publish the list of the holders, showing when the registration cards expired. It was but a technical thing, he thought, and while he could not say that there had been any violation of the rules, he believed that there had been an oversight in this regard. Just such little things as these, he said, gave rise to dissatisfaction. The reputation the association had gained for itself, from what he could learn, was that the officials were over-technical. This was the feeling of outside persons and they counted for something, he asserted. A little more thought and consideration for the public and those holding registration cards would go a long way to help matters out. There has been rumors that because of such lack of foresight, Mr. Castle said, men had been left out in the cold.

GUNBOAT SMITH WINS
OVER FRANK MORAN

NEW YORK, September 7.—"Gunboat" Smith outboxed Frank Moran in a ten-round bout here tonight. Moran had the better of the first round and held his own in the second, but in all the others "Gunboat" had the edge.

"Gunboat" landed a damaging right hand swing over Moran's eye in the third round and that handicapped Moran the rest of the route.

Smith used a left jab to good effect, but could not land his famous right hand haymaker for a knockout. Moran weighed 198 and Smith 180.
